

OUR way  
F>>RWARD  
FACING OVARIAN CANCER  
WITH CONFIDENCE

LET'S MOVE  
FORWARD TOGETHER

*Our Way Forward* is a call-to-action that encourages ovarian cancer patients, their loved ones and healthcare providers to rethink how they talk about advanced ovarian cancer.

*Our Way Forward* has been created with the patient's needs in mind: we've listened to patient and care partner stories and have taken their perspectives and experiences into account as we tailored content to address the physical and emotional challenges that the disease brings.

# FACE OVARIAN CANCER WITH CONFIDENCE

Explore [ourwayforward.com](https://ourwayforward.com) to find:

- Relevant support and educational tools
- Real patient and care partner stories that share perspectives about various aspects of life with ovarian cancer
- Videos featuring live storytelling events and patient, care partner and healthcare provider perspectives
- Discussion guides to foster clear, honest and open communication and collaboration with the oncology care team to improve understanding about ovarian cancer and guide self-care for women with ovarian cancer
- Resources specific to care partners' needs
- Information about upcoming events for the ovarian cancer community

*Our Way Forward* was created by GlaxoSmithKline (GSK), formerly TESARO, Inc., with input from the National Ovarian Cancer Coalition (NOCC) and the Ovarian Cancer Research Alliance (OCRA). GSK is committed to offering resources to educate, empower and support those affected by ovarian cancer.
